

Kylie Marcisz

Berkeley, CA | kyliemarcisz@berkeley.edu | [LinkedIn](#) | [Github](#) | [Personal Website](#)

EDUCATION

University of California, Berkeley

Berkeley, CA

Bachelor of Science in Electrical Engineering and Computer Science

Expected Graduation: Spring 2028

Relevant Coursework: Structure & Interpretation of Computer Programs (CS 61A), Foundations of Signals, Dynamical Systems (EECS 16A), Sound and Music Computing: DSP, Psychoacoustics & Ambisonics (Music 158A), & Physics 7A

PROFESSIONAL EXPERIENCE

BACCH Laboratories

San Clemente, CA

Acoustics Engineering Intern

June 2023 - Present

- Prototyped an 8-speaker Personal Sound Zone array for CES 2026, iterating 3 design cycles to optimize spatial audio isolation
- Tuned driver tolerances to optimize EQ performance across configurations; currently building the reference architecture
- Collaborated with CEO and CTO to pioneer Affiliate Marketing Program; Recruited 10+ influencers with 27k following
- Represented the company at CES 2023-26 through demonstrations of an 8-speaker with cross-talk cancellation algorithm

Microsoft

Berkeley, CA

Engineering Lead (Contract)

June - September 2026

- Synthesized 21 manager/IC interviews into AI-readiness adoption strategy, presented to Microsoft executives & sponsors
- Built Fourier, a full-stack web app that recommends the best AI tool for a task based on each user's onboarding AI toolbox
- Narrowed Fourier from 6 features to 1 evidence-backed wedge by re-scoping tool from usage-scoring to behavior-change

Amazon Prime Video

Berkeley, CA

Product Manager (Contract)

June 2026 - Present

- Led young-adult (16–24) audience research engagement, gathering 500+ data points across viewing behavior & discovery
- Architected 2 survey instruments end-to-end (35+ questions each) to capture the primary data across all target behaviors
- Grew client pipeline by scoping & mapping the team's market-research capabilities to prospective sponsor engagements

Princeton University 3D3A Lab

Princeton, NJ

Summer Research Assistant

June - July 2024

- Supported Professor Edgar Choueiri with research in anechoic chamber testing AI-integrated solutions for head-tracking
- Selected as 1 of 4 students from a 400+ applicant pool through the competitive Princeton Laboratory Learning Program
- Integrated research findings into BACCH's Optimal Room Correction Prototype demonstration housed at 3D3A Lab

LEADERSHIP AND ACTIVITIES

Hackathons @ Berkeley

Berkeley, CA

Logistics Director

January 2026 - Present

- Managing communication across judges, sponsors, and entertainment partners for the world's largest collegiate hackathon
- Coordinating food for 1,500+ attendees, liaising with vendors to align delivery timelines for AI Hackathon 2026 at UCB

Kempo Martial Arts, United Studios of Self-Defense

San Clemente, CA

Black Belt/Instructor

January 2012 - Present

- Earned Black Belt after 14+ years of training; competed in national sparring and kata tournaments, medaling 50+ times
- Taught and mentored 25+ children ages 5-12 weekly, developing a curriculum and coaching students through belt tests

SKILLS & INTERESTS

Acoustics: Array Design, Crosstalk Cancellation (XTC), Room Correction, Anechoic Chamber Testing, Psychoacoustics

Programming & Tools: Python, Max/MSP, Open Sound Control (odot), SQL, Cloudflare, Git/GitHub, Claude Code

Interests: Backpacking (Inca Trail & Uganda Jungle), TED Talks, Cheesemonger (50+ cheeses), Travelling (20+ countries)
